Who are we?

Kutitva Foundation was established in 2017 as a Non-Profit Company (NPC) Reg: 2017/219565/08 and became registered as a Public Benefit Organization (PBO) Reg: 930065082 in 2019.

As Learning Success specialists we help children and adults discover their “why” and “what” so that they can live life with purpose and value, positively impacting their families, increasing their skill set and develop South Africa. Our focus is to assist underprivileged youth in discovering their strengths and talents and how to utilize them in their studies, personal growth and future success. We work with Grade R through to Grade 12, and tertiary, including the educators and school management teams in our training and development programs.

Our core goals are to:

- Positively impact young people’s lives and be a catalyst for change,
- Challenge young (and older!) minds to give them a purpose and hope in life,
- Reach Learners and Educators in all fields of education across South Africa,
- Enhance the education system in South Africa,
- Improve the lives of South Africans through self-discovery and learning,
- Erode poverty through self-discovery and education

Our Footprint

We have physically reached over 3000 students and 300 educators, in rural, peri-urban and urban primary and high schools in Gauteng and the Eastern Cape. We also have a countrywide reach due to a project that aired on a South African TV channel, SABC.

Some of our projects:

- Since 2019 to current, we have been on SABC TV under the DoE “**Woza Matric**” program. This is an initiative with the Department of Education and 2Enable, and Kutitva was filmed for 8 short psychosocial edutainment videos that have been on the Woza Matric TV channel permanently as a resource for learners. Our Kutitva videos cycle throughout the day in between the STEM subjects.
- **Telkom High Schools** project 2017-2022 with DoE, Protec and Kutitva in 25 schools from Gauteng and Eastern Cape.
- **Deloitte** Impact Day and workshops for Grade 4 - 7 learners and educators from Philena Primary School in Olievenhoutbosch township, Centurion, Gauteng.
- **ECD training project with educators** in Gauteng.

Directors: Joanna Bukasa, Darleen van Tonder (Founder), Regomodise Khoele, Mantsha Peeha

What makes us **different?**

No matter what the socio-economic demographics are, we aim to create dynamic environments with student-centred personalized learning and growth solutions.

Our assessment tool is psychosocial, thus it is not focused on academic ability, however, when personally applied, the results of increased academic marks and personal improvement are inevitable!

Our fundamental objective for Learners and Educators is to facilitate them in discovering their strengths, providing "handles" to utilise these strengths in their learning, teaching and classroom management, whilst becoming healthier in their areas of "weakness."

We approach our learners and educators holistically, acknowledging different ways of learning alongside Life Skills development tools

We are Learning Solutions Specialists with a combined international footprint of over 35 years with results echoing from first to third-world countries Grade 3-12.

We focus on self-awareness, and a growth mindset, incorporating differentiated learning and communication approaches.

Our joy is in helping individuals discover their personal:

Why

What

How

OUTCOMES INCLUDE:

- Personal Self-Awareness assessments and psychosocial coaching for students and educators
- Personalized study techniques
- Subject choice assistance – Grade 9
- Career Guidance
- Creative classroom management skills for educators
- Upskilling of facilitators and educators
- Discovery of strengths and talents
- Life skills development
- Positive self-esteem upliftment
- Instilling a sense of hope and purpose

How can you partner?

Fund their future

You can select to provide funding towards a portion of, or in full, for one or more schools. This will benefit the students, educators and management, and the district.

This investment is per grade and includes:

- Personal Assessment per student
- Smaller group feedback session
- Termly grade/class workshops
- Personal Assessment per educator
- A parent workshop
- Teacher workshop
- A5 Manual
- Individual results reports
- Class/grade feedback and stats

**Fund a full grade
or a portion.**

**Contact us for a
tailored proposal.**

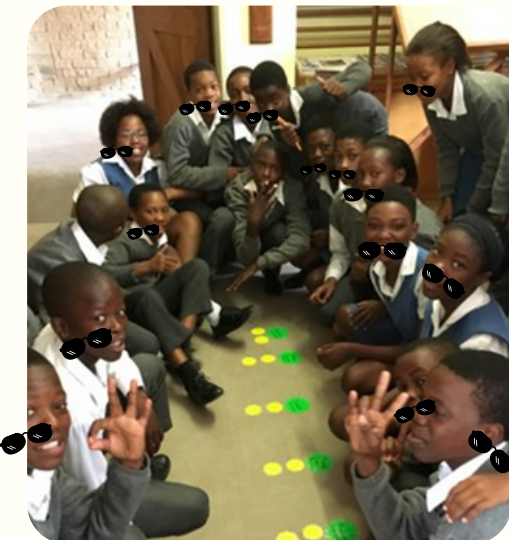

Investment per educator includes

- Individual international psychosocial assessment
- Workbook per person
- Workshops presenting personal results, staff team results, and life coaching.
- Classroom management skills
- Time-saving preparation techniques.
- Access to the website with tools and personal helps.
- Access and training on database for principal and management regarding their staff team make-up, and learner's / class / grade results
- Conflict resolutions skills
- Communication skills

Investment per student includes

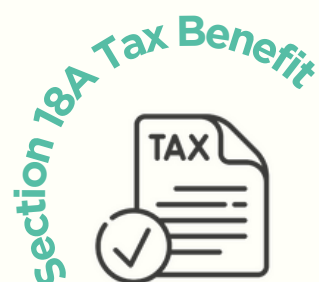

- Individual international psychosocial Assessment (35+ years implementation in 1st to 3rd world)
- Online report accessibility per student
- Workbook per student
- Workshops presenting student's personal results and coaching (including industrial theatre)
- Grade 9 subject choice and career guidance assistance
- Personalised study techniques and tools

You can also partner the following ways:

There are various other costs and moving parts when hosting workshops. Below is a list of additional ways you can join in making a change:

- **Printing costs**
 - Booklets, manuals and/or assessments
- **Cost of the assessments**
 - These assessments are international and we are required to pay per assessment. LearningSuccess Institute (LSI) has offered them to our NPO at a lower rate.
- **Transport for facilitators**
 - Our facilitators and project leads travel from all over, and assistance in this regard (whether flights or local transport costs) as well as potential accommodation for our lead facilitators
- **Mobile sound system**
 - Many schools that we work with are rundown and in poverty-stricken areas. The schools often don't have microphones or sound systems which is a huge asset when facilitating workshops of over 250 students.
- **Facilitation and Data-capturing**
 - Our team is well equipped, however, with the impact as wide as it is, we can't be at all workshops at once. Maybe you have a team that is skilled in assisting in these workshops as a facilitator or a data-capturing of the assessments onto the LSI platform.
- **Technology**
 - Due to the lack of digital resources at the schools, we are required to print the assessments and have a team that would input the data onto the LSI platform. Our team would require laptops to do so.
 - In addition, once again due to the lack of digital resources at the schools, we often cannot project the presentations for the students to see. iPads or tablets would assist in this regard as we can break into smaller groups and present using *those devices*.

Thank you

We value partnerships with funders, like yourself, as we know we can't do this alone.

The only way we are going to change the future of the youth in South Africa is by working together.

Join us on this journey and be a catalyst for change. Your contribution, no matter how big or small, will make a tangible difference in the lives of these deserving students. Together, we can ensure that every child has the opportunity to thrive and build a brighter future for themselves and their communities, and empower them to break the cycle of poverty through education.

Thank you for considering our request, we would love the opportunity to partner with you in any way you can.

Please contact us so we can change the future together.

Once our students and educators know themselves, they can positively influence and build their future!
